## Build it: Queen Platform Storage Bed

SANDUST GIRL

Next, I flipped the cleats over and used a 1/8" forstner drill bit to bore a hole 1/8" deep. Step 2: Build the Platform Base Use 2x4s and 3x4 construction screws to assemble as shown below. How To Attach The Top Board To The Headboard And Footboard I attached a 2x4 to the top of the headboard and footboard, again to add more detail and dimension to the project. They require quite a bit of guesswork and we ended up having to modify the hardware a bit. It has tons of space to store blankets, totes, and even luggage! I'm a tad jealous that this is at my mom's house and not for me! It's a great addition to any guest room, but really it could be perfect for any bedroom. I attached it using 1 1/4" screws, but 2" screws would work great for this. Installing The Gas Struts and Handles I attached the gas struts to the lift mechanism, then attached the handles to the foot of the bed frame. This post contains affiliate links. The angle brace attaches to the bed frame, so we used the holes in the brace as a guide to drill holes into the bed frame using a 25/64" drill bit. To attach the cleats to the foot of the bed, I used wood glue and 2 1/2" wood screws. I've put together PRINTABLE PLANS that give you the materials list as well as the step by step tutorial. To make it easy, I put together a video to

accompany the step by step project for you.À Á Prepping The Wood To Build The Bed Before I got started with the building of the bed, I needed to use the hardware used as a guide to the cleats in the plywood. À ÁI used the center divider, next. Queen Platform Bed Frame with Storage Drawers Materials: Use 3/4x4x4 plywood or MDF Wood glue 1 3/4x4x4Wood screws 3x4x4 construction screws 2x4x4 lumber for base Step 1: Build Drawer Boxes Build 6 identical storage boxes. À ÁIf using pine for this project, you can easily find sticks of cove moulding at Home Depot. The attachment with wood glue and 1 1/4 "Ux ± as Brad, then meditate to adapt to the pieces of horizontal ornaments. Just look at the images :) How to build a video of the storage bed. It does not like to read step by step. The vertical adjustment pieces will go on the foot adjustment. Once all the molding was added, how to gather the bed the bed was assembled instead, so we take all the pieces to my mother's house. For this project, I spot it in a golden oak stain. the plywood in handy size Before moving to my table mountain range, I used my Kreg ripe. Place the bottom to the sides, the lower part is united 3/4. Cala molding on the inner edges of the edge. Set the storage compartment inside the base and ensure the compartments together driving 1 1/4 à.~ à³ screws on the sides. Apply three layers of polyurethane once the stain was dry. I I. I I held it instead and attached it with 2 1/2 à.~ "Wooden screws, then connect the holes with 1/4 à.~" Dowels to hide the screws. The screws. Prededà pocket holes in the plywood panels more large with my r3 template, and also cut the dimensional wood of my sierra de groin. If you want to build this bed yourself, be sure to download the printable plans! They include the necessary materials, the cutting list and detailed instructions of the diagram.
